Gas Attendant Rapist-Whipped \$75 Home

6 Homes Burglarized,
Thieves Get Christmas
Gifts, Money, Rings

An armed bandit pistol-whipped and held up a service station attendant and six homes were burglarized as 13 thieves and burglars were reported to Quad-City and Madison county authorities during the weekend.

An armed bandit escaped with about \$75 at Uplike Service station, Route 162, about noon, Friday after pistol-whipping the attendant, Dorris Malar, 42, of Mitchell, and threatened a witness who appeared after the attendant had been dragged into a rest room.

Malar told county authorities that the robber, a Negro, struck him on the head with what appeared to be a .22 caliber blue steel pistol.

After being knocked to the floor, Malar was ordered by the lone bandit to "Empty your pockets. This is a burp-up. The robber took \$35 from Malar's wallet and then went to the cash box in a drawer and took about \$40.

The bandit was still in the station building when Mrs. Kenneth (Norma) Lewis of Collinsville drove up and walked inside to purchase cigars. She had left her pickup truck by the gasoline pumps with the engine running.

Mrs. Lewis was confronted by the robber and started to leave. "Come on, get in the back," she was instructed. She said she had a gun in one hand and money in the other hand.

She was escorted to the back room where Malar was on the floor. "Get down on your knees," was the next order by the robber, who added, "Don't try anything, because I'll be right out front."

The bandit then fled, Mrs. Lewis tried to telephone for help, but the wires had been pulled loose.

She then drove to the home of her father-in-law, Earl Lewis, about a half-mile away on Route 162 and police were summoned. She was accompanied back to the station by Earl Lewis and by her husband, Kenneth.

Malar was taken to St. Elizabeth Hospital by ambulance. He told authorities he was leaving on the highway when he saw the man walk toward the station and along the highway. The stranger

3 Autos Slide On Frosted Bridge Deck, Hit Railing

The frost slick deck of McKinley bridge caused three accidents Sunday morning, but only one was reported to police.

In that crash, the auto of James Smith, 41, St. Louis, knocked a 10-foot beam out of the railing at the top of the east approach about 7:50 a.m., but Smith escaped injury.

Although his car was badly damaged, he was able to drive to the police station to report the crash. He was released when the car skidded as he made the turn. The 10-foot beam ripped open the trunk of his auto and the jack and several tools fell out.

A short time later at the identical location, a motorist driving an old Ford auto slid into the protruding I-beam, knocking it down into place. He did not report the crash.

The same location was the scene of a third crash in which an auto slid into the railing. That driver also did not make a report, but Venice police learned of it from witnesses.

Downtown Site Bought As Scenic Parkway

\$29,000 Contributed
To Buy, Raise Former
Post Office Building

On the same weekend that voters approved construction of an ice skating rink-recreation center, the Granite City park district was authorized by the federal government to purchase the downtown post office building for creation of a scenic parkway.

Advised by letter Friday that its plan was acceptable to the U. S. Department of the Interior, the district immediately forwarded a check for \$22,850 to the U. S. General Services Administration.

The purchase price and funds for demolition of the former post office were contributed by local businesses and individuals, some of them owners of property surrounding the triangular block bounded by Nidringhaus avenue, 20th street and Delmar avenue.

List of Contributors
Voluntary contributors were Tri-City Grocery Co., Granite City Steel Co., the Press-Record, General Steel Industries, First Granite City National Bank, Hunt's Shoe Store, Graham's Book Store, Illinois Power Co., Henry D. Schuman, Southwestern Bell Telephone Co., State Loan & Savings Association, Steele-Kunzmann real estate agency and Truller's clothing store.

Park Board President Barry Loman thanked the contributors and said arrangements will be made to proceed with the beautification as soon as possible.

Loman said, "We are really happy about it and hope to obtain development ideas from Dr. Taylor's Southern Illinois University students by the end of this month." The students were

Ice Rink Approved By 1225-319 Vote

There'll be ice skating under a rink and the year-round community pavilion at Wilson Park in the next recreation center.

The "yes-no" proposal carried 1225 to 319 in the Granite City park district held in both park district voting places. At the downtown polling place, 773 ballots were cast, with 634 "yes" votes and 129 "no." Ten ballots were spoiled.

The unofficial tally, which is to be canvassed at Wednesday night's meeting of the park commissioners, showed 1554 voters went to the polls, with 1225 favoring the ice rink-recreation center and 319 opposed.

Approval of the \$475,000 bond issue, which is to be financed over ten years, paves the way for detailed plans to be prepared by the architects for the roofed facility.

Park district commissioners are planning for the rink-center to be self-supporting after construction.

Park President Barry Loman today praised the efforts of youth and adult groups in obtaining public approval.

He said a special meeting will be held this week, in addition to Wednesday's regular board session, to confer with the attorney and architects and make plans for the bond sale.

The bond issue is the first to be undertaken by the Granite City park district in 26 years. Back in 1839 a bond issue was approved for construction of the swimming pool at Wilson Park.

The pavilion, which is to be located a short distance north of the park office, is to cover 115,205 sq. ft. of concrete surface that will provide an 85x35-foot rink. Included in the construction will be a 500-square foot warming room and concession building and a 57x40-foot paved patio area.

With the roof over the large area, park commissioners are planning for ice skating four to five months of the year.

As a community recreation center the remainder of the year, the structure will be available for use for community gatherings, concerts, square dances, gymnastics, theatrical presentations, sports exhibitions, flower shows, conventions, festivals and other types of meetings. It will provide a seating capacity for up to 3500 persons.

Community leaders supporting the rink conducted an enthusiastic campaign for approval of the bond issue after the park district's decision to proceed with a special election on Nov. 2, when a citizens' committee was formed.

R. R. Brik, manager of the local A. O. Smith Corp. plant, chairman of the campaign, commented Saturday night upon being informed of the voters' approval. "This is great. This is a step forward for this progressive community and will be of much benefit to everyone."

Doctors made efforts to revive her through mouth-to-mouth resuscitation and use of the Granite City fire department's inhalator. Mrs. Nightwine was pronounced dead on arrival at St. Elizabeth Hospital, at 7:20 p.m. She had been under medical care with a heart ailment.

Mrs. Nightwine and her husband, Ross O. Nightwine, had arrived at the church just a few minutes prior to her collapse at the dinner table. The occasion was the annual Christmas banquet given by the Past Noble Grand Club of Juana Rebekah Lodge 477, of which Mrs. Nightwine was a member.

Bidding Cuts Interest On Unpaid Tax Bills

Competitive bidding among professional tax buyers at the annual Madison county tax sale which ended Thursday afternoon resulted in extensive interest savings for delinquent taxpayers.

Bidding in some instances to see who would pay the lowest interest rate on tax bills unpaid for at least ten years resulted in some rates as low as two percent.

Most of the 2002 parcels sold during the sale, however, went to buyers at four or five percent. Owners may redeem their real estate within two years by paying the current and delinquent tax bills, plus the interest rate bid on the property by the buyer. They also must pay advertising and sale costs. The law actually allows buyers to charge a maximum of 12 percent for each six months of the redemption period.

The office of Treasurer George Musso said that a total of more than \$265,000 in delinquent tax bills were bid by professional buyers at low interest bids made during the three and a half-day sale.

Annexation May Go Before GC Council Again Tonight

An ordinance for annexation of a 96-acre tract to Granite City will be re-submitted to the city council at tonight's 8 o'clock meeting, when other business is to include the extended battle to the council to hire two replacement street workers and the possible strengthening of the city's parking laws.

The 96-acre development, Maryville Gardens, is being planned by the Loden Corp. which has the support of the City Plan Commission and Mayor Parmenter. Zoning changes also are needed.

The developers are Arthur McFarland, local contractor, and Robert Gauen and Mrs. Martha Browning of the Gauen Lumber Co. in Collinsville.

The tract is located east of Holiday Gardens subdivision and south of Pontoon road. The layout has been designed and engineered by the architectural and engineering firm of Research Planning & Design Associates, St. Louis.

It is designed to provide a complete neighborhood with advanced ideas in the grouping of single, duplex and multiple living units, garden apartments and continental town houses.

Walkways are to be provided to get to the shopping facilities, children's play areas and family recreation areas.

The recreational areas within the development are to include a Bath & Tennis Club; a three-par, three-hole golf development, an olympic swimming pool, theatre and restaurant.

The development originally was announced last summer, but the city council has held up on the annexation and its approval, pending the presentation of detailed architectural and engineering plans. Such plans are ready for presentation this evening, it was learned.

Holiday Hours Set For County Museum

The staff at the Madison County Museum will follow the same holiday schedule as other county offices and will be closed from Dec. 24 through 26th and from Dec. 31 through January 2. The usual visiting hours will prevail on Wednesday, Dec. 29, according to A. Edson Smith, superintendent.

During the recent quilt exhibit at the Museum, 1002 persons visited the showing from Nov. 10 to 28. Of these registered guests, a few were school groups who had scheduled visits earlier.

Members of the Edwardsville Garden Club, assisted by Mrs. Maillard Timmermeire of Alton and Robert Lange, of Edwardsville have used Christmas tree hangings of the early 1900's from among the Museum possessions, in creating a holiday atmosphere within the building. Children's blocks and other early toys are on display at the tree.

Treat Distribution Thursday in Venice

New State Law Says Guns in Car Must Be Cased

Arrests have been made for violations of regulations governing the transportation of firearms in cars, William T. Lodge, director of the Illinois Department of Conservation, said last week.

"According to the Game Code, all firearms must be in a case and unloaded when carried in a vehicle," Lodge explained. "Formerly, guns did not have to be cased if they were broken down, but road shooters learned to carry shotguns or rifles broken down and to assemble them in seconds when a rabbit, pheasant or deer was seen on the road."

Now all firearms must be unloaded and in a case when carried in an automobile or on a tractor.

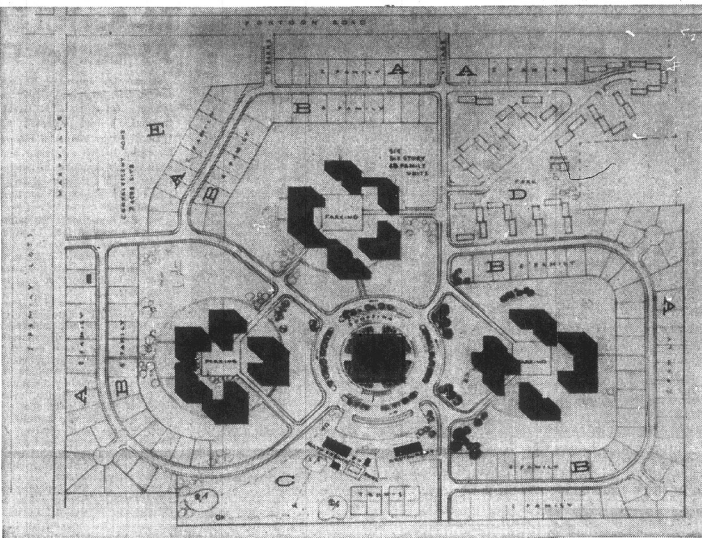

"One reason for the law is to discourage road shooters," Lodge said. "But another, and more important reason, is that loaded guns in vehicles are dangerous. Almost every year one or two hunters are killed when a gun fires in a car."

All conservation officers have been instructed to issue citations to hunters who violate the regulations concerning the transportation of firearms.

Auto Grazes School Bus At Nameeki, Pontoon

A school bus was grazed by an auto as both vehicles were making right turns at the Nameeki and Pontoon road intersection about 3:30 p.m. Friday. None of the 30 youngsters aboard was hurt, police said.

The Bi-State bus was being operated by Mrs. Kathryn Gray, 2630 Edwards street, while the auto was being driven by Judith Richardson of 17 Voight place.

PROPOSED DESIGN for the 96-acre Maryville Gardens development by Arthur McFarland and associates east of Holiday Gardens and south of Pontoon road. Annexation is to be sought at tonight's Granite City council meeting.

In the center circle area are areas for four-family units. The area designated and upper left is "E" which will be shopping facilities. "C" is for a par-three, three-hole golf course and cent home on a seven-acre tract. At the lower right are lots designated for one-family dwellings. The tracts marked with "A" are for two-family dwellings, while the "B" area marked "D" is right is property not acquired for the development.

Calling All Home Makers

By Aaron Friedman
A LOOK INTO THE FUTURE

What will the home of tomorrow be like? Here are some ideas on how our homes will look, perhaps 20 or 30 years from now—or less. We thought you might enjoy reading this.

Lamps will be cordless, will automatically turn on when you enter a room, and then turn off automatically when you leave the room.

You won't have to worry about closing windows anymore when it rains. Windows will close electronically by themselves when rain starts.

Walls will be one-way transparent—you'll be able to see out the whole length of the wall space—but nobody will be able to see in.

Some decorators feel tables will be recessed into ceilings and then lowered electronically when needed.

Chairs and sofas will be recessed into walls. When you want one you push a button and out it comes into place.

These are great ideas to think about, and no doubt they'll all come true, but meanwhile, if you want some present down-to-earth furniture values for your home, we are ready to serve you with the best there is in the world today—for your home right now.

So, remember, when shopping our decorating and sales staff here at Friedman Bros. Furniture Co., Nidderhagen and Delmar Ave., in Granite City, is always ready to serve you. We are open Monday, Thursday and Friday night until 8:30 p.m., other nights until 8:00 p.m.

Venice's 'Superior Height' Edge Humbles MCM Foe Aviston, 93-25

In an almost carbon-copy of a game played a week ago, Venice's Red Devils humiliated Aviston, behind a score of 93-25 at Venice Friday night.

The first encounter of the two teams during the MCM Conference tournament resulted in a 75-18 win for the Red Devils. The visiting team sank only four field goals during the entire game Friday night and was led by their tallest player Bob Stricker, 5'10," with eight points.

Normally Venice is on the shorter end of the height situation, but the Red Devils' "superior height" was the deciding factor. Venice blocked nearly 15 shots, and used the full-court press during the opening moments of the game only.

As was the first Venice-Aviston game, the first team for the Red Devils played only the first quarter, and sat out the rest of the game.

Venice jumped off to a 11-0 lead before Aviston got on the scoreboard with a free throw. Aviston made 17 free throws for the majority of their points.

Percy Dillon was high scorer for the evening with 17 points, as all 12 Venice players hit the scoring column. Jerome McGlone was next with 13 points for the evening.

Two other Red Devils hit the double figures. They were Frank Glover and Dennis Hundley with 10 points each. The win gives Venice firm hold

on the MCM Conference first place with a 3-0 league mark and an 8-0 overall mark.

Moments later, early in the fourth quarter, Moore fouled out, after he netted 21 points in a losing 76-70 cause.

Add Cahokia To '66 GC Grid Slate

Only one change has been made in the scheduling of the 1966 Granite City high school football season.

Instead of opening with River-view Gardens, as the Warriors did in 1965, they will play their first game against the defending Midwestern Conference champions, the Cahokia Comanches.

"We'll be looking to a hard-fought rivalry with Cahokia," said football mentor Jim Morrison in regard to the schedule change.

The schedule for 1966 is as follows:
Sept. 16 Cahokia
Sept. 20 At Madison
Sept. 20 At Collinsville

Oct. 14 At Wood River
Oct. 21 At East St. Louis

Trojans Shock Fans; Upset Knights, 76-55

Madison's Trojans shocked some prep basketball followers and beat Triad, 76-55 in a cage contest at Madison Friday night.

Playing without the services of Paul Lusk, the Trojans showed that they still have the offensive threat to challenge their opponents.

The Trojans fell behind 4-0 in the opening moments of play, but rallied to take a 16-13 first quarter edge. At halftime, with the help of a 24 point second quarter, Madison led 40-26.

"It felt different to be leading at halftime by 14 points. Usually we're trailing by that margin," said Trojan coach Earl McClannahan.

Madison dumped in 23 points during the third period and took a commanding 63-42 margin going into the final period of play. Dale Turner continued to pace the Trojan scorers with 26 points on 12 field goals and two free hits. Ron Burt and Neil Podoba hit 10 points each.

"We played 10 boys and eight of them scored. I'm real pleased with the game and the things they showed me," McClannahan added.

The Trojans hit for an amazing 69% from the floor, and out rebounded the Knights by a wide margin. Triad tried to use a zone press, but Madison had little trouble breaking it.

"Our defense was much improved, and our scoring was balanced," McClannahan said.

The win gives Madison a 3-1 overall mark, while Triad is now 5-3 overall. Next year, the two teams will play in a conference game, as Triad will officially be in the middle of the Midwestern Conference basketball race.

Individual Scoring:
Madison — Turner 26, Burt 14, Podoba 14, Gress 7, Williams 5, Randall 5, Verney 2, Lusk 2.

Triad — Smith 10, Sells 10, Brendel 9, Zolobist 8, Lewis 8, Cline 5, Wood 3, Zieplike 2.

Braves Sweep 3 Games With Prather JHS

Coolidge won all three games over Prather in junior high action Thursday night.

The Braves won the 9th and 8th grade games at Prather by scores of 61-46 and 42-23, respectively. Prather trailed the Braves by one point with a minute and a half to go, but a pair of fouls gave Coolidge the ninth grade win.

The lead switched throughout the game. Coolidge took a 25-24 halftime edge, and Prather came back to lead 39-35 after the third quarter. Roger Belthe of Prather led all scorers with 22 points, and Coolidge's Gary Simpson was high for the Braves with 19 points.

The eighth grade game saw Coolidge take a 16-8 halftime lead, and never relinquish it. Tim Moore was high scorer with 21 points for the Braves, and Stan Corey netted 10 for the Chiefs.

In the seventh grade played at Coolidge, the Braves walked away with a 40-19 score. Ted Harris was high scorer with 12 points, and John Ireland tallied seven points to lead Prather.

The second bout between Jack Dempsey and Gene Tunney on Sept. 22, 1927, drew the largest amount of gate receipts in the history of boxing—over 2.6 million dollars.

Makoto Sakamoto, Los Angeles, won seven of the 10 events in the 1964 National A.A.U. gymnastics championships at Lakewood, Ohio.

Canada has won the ice hockey title in six Olympic meet since 1920. The U.S.S.R. won it twice, and Great Britain and the United States once each.

Granite City's Fighting Warriors found success against the man-to-man press but did not enjoy the same results against the zone press as they split weekend cage games with Edwardsville and Alton.

The Warriors lost to Edwardsville 76-70 Friday and upended the Alton Redbirds 94-70 Saturday in two Southwestern Conference games at Granite City high school's gymnasium.

Granite City, facing Edwardsville's zone press, found itself behind a 45-29 halftime score Friday night. Terry Moore hit on four jump shots for eight points and led the Warrior's third-quarter rally. Moore hit for two free throws in the fourth quarter before fouling out with high point honors and 21 points.

Elmer Wortham picked up where Moore left off and paced the Warriors' come-back drive. Wortham scored eight points in the last period of play and finished the evening with 10 points. Bill O'Neill also had 10 points for the Warriors.

High point honors for Edwardsville were taken by Jim Jackson with 19. Leon Moore "chipped in 13 points.

The loss left the Warriors with a 1-4 overall and 6-3 conference mark, while facing Alton or Saturday night.

40 Point Quarter
Granite City hit for 40 points in the second quarter and took a commanding 56-39 halftime lead against the Redbirds Saturday night.

Trailing 19-16 after the first quarter, Larry Ripka, Jim Hentzel, and Elmer Wortham led the scoring barrage for the Warriors.

Alton had been using a man-to-man press and Ripka was beating his man down the court. To combat this, the Redbirds shifted to a zone press, and still the Warriors broke it. Finally, in desperation, Alton went back to the man-to-man press.

Ripka, the evening's high scorer with 28 points, hit on four field goals and was four-for-five at the free throw line in the second quarter.

Wortham had two baskets and six free throws, and O'Neill sank two baskets and two free throws also in that quarter.

Shortly after the second half had gotten underway, Granite City found itself with three players having four fouls, but Alton had fouled players with four fouls apiece. Moore and Jim Stuart of the Warriors, Rodney Spooner, Bob Gruver and Jim Schroeder of Alton all fouled out early in the fourth quarter.

The game was plagued by penalty whistles, with the officials calling 64 fouls and 44 charity shots taken. Both teams sank more free throws than field goals. Granite City had 38 free throws and 28 baskets, and Alton 24 free throws and 23 baskets.

The game leaves the Warriors with a 2-4 overall and 1-3 conference mark. Alton is 4-4 overall and 1-2 in conference action.

Following GC-Alton Game Game More Demanding On Officials Than Ever

By MIKE GREMAUD
Press-Record Sports Editor

There may need to be a collection taken up during halftime at all Granite City-Alton basketball games in the future.

The proceeds will not go to the expenses of the schools in programming the games, but rather to officials and scorers.

While the Warriors and Redbirds were scoring in combined total of 164 points, committing 64 fouls and taking 94 free throws, officials wheezed, scorers worked rapidly and the sports reporters ran out of room in their scorebooks as well as scrap paper to jot down bits of statistics.

The officials, doing their duty, called 64 fouls ranging from near outright tackling, stepping on toes and tripping to elbow-pushing. Their whistles never did rest, the calls including 24 violations, such as traveling, double-dribble, three seconds and jump balls. Official scorers for both schools had writers' cramps when the "duet" of battle settled, and two man-hours were spent checking and double-checking figures, percentages and the rest of the statistics.

In the midst of all the action, there must have been several

school, if not conference, records set.

Why it staggers the sportsman's imagination just to think of the possibilities.

Points for a single team in a quarter (40, second quarter, Granite City); points for both teams in a quarter (60, second quarter); total fouls in a game (64); single team fouls (Alton 34, Granite City 30); free throws made by both teams (Granite City 38, Alton 24); players fouling out (GC 2, Alton 3); free throws missed (Alton 18, GC 14); players seeing action (Alton 12, Granite City 14); total points both teams (164); and on and on.

To add to this problem, 20 more free throws could have been attempted had not both teams made the first one on one situations.

It makes one wonder if all the whistles, fouls, etc., were part of an off-season football drill. The most likely reason was mistakes by over-anxious athletes in typical Southwestern Conference competition.

Oh, there's one more possibility of a record which was missed:

A gross of pencils, half a dozen ball-points and three tons of scrap paper!

Good grief!

Two Granite City wrestlers remained undefeated in season competition as the Warriors won their 11th consecutive dual meet match over Normandy (Mo.) by a 28-14 score at Granite City Saturday afternoon.

Bill Fuchs, Illinois state runner-up in the 95-pound class, wrestled in the 105-pound class and defeated Ron Smith by a 11-1 score. Mike Andria, 138-pound class, defeated Normandy's Mike Volger, 8-0.

MORE ABOUT Underpass

state has channeled much of its available highway construction money into projects for which the federal government is providing 90% matching funds to 1975 provided by the state.

Dr. Lee said he was told that highway officials, however, plan to review the project, in view of its urgency and the deadline for construction fixed by the ICC. If funds are available the project will be added among 1966 construction activities, Lee said he was told.

In view of this information, the mayor told council members, "I intend to meet with highway officials again in January. If they cannot assure me then that construction will start in 1966, I think we should petition the Illinois Commerce Commission for the underpass gets close to the construction stage."

Closing of Kerr street preparatory to relocation of railroad tracks at Main street, where the underpass will be built as a connecting link with new Federal Aid Route 151 (the Great River Road) was included in the order of the ICC two months ago.

The order, finally completed after two years of hearings, fixed the division of costs between the railroads, the city of Venice and the state, and ordered the building of the underpass within a two-year period.

Kerr street frequently is used as a detour to move traffic blocked by freight trains at the Main street crossing at the foot of McKinley bridge.

As for the air pollution problem that Venice appears certain to face prosecution under recent court proceedings filed against the city in behalf of the Illinois State Air Pollution Control Commission.

The complaint, filed in circuit court by the attorney general's office, charged the city of Venice with violation of a smoke abatement order by open burning at the city dump on six specific days in September and October. The city is subject to a fine up to \$200 per day on each of the six counts.

"I met with air pollution board members in Springfield, and the mayor related," and was told that we have not shown definite progress toward elimination of the problem on a permanent basis."

State Not Satisfied. He said the state is not satisfied with Venice's present arrangement of disposing of trash and garbage through Granite City's landfill operation, and that more permanent arrangements must be made.

"I also met with a representative of the attorney general's office and was informed that unless the air pollution board instructed it to the contrary, that office would be required to prosecute the case," the mayor went on, adding that "it looks like we have our backs to the wall and we are going to have to move on this problem."

The mayor said he will begin obtaining estimates and other details concerning installation of an incinerator and will present further information to the council at the next meeting Jan. 7.

The Venice council also adopted an ordinance providing for a four-cent increase in the city tax for garbage collection. The new tax extension was made possible under a new state law which required the tax be adopted by Dec. 31. A similar increase was voted by the City of Madison last week, along with a one-cent additional tax for recreation purposes.

The recreational tax was not applicable to the city of Venice, however, as Venice has its own park district which levies recreational taxes.

Jury Awards Girl \$4000 After Fall from Horse. A Madison county circuit court jury awarded \$4000 to Vicki Fricker, daughter of Mr. and Ralph Fricker, 3213 Aubrey avenue, Thursday in a civil suit in which Guy Lahr, 330 Lenox avenue, Mitchell was the defendant.

The girl had fallen from a pony at the Lahr home on Jan. 29, 1961, and was injured when her foot remained hooked in a stirrup.

Area College Students Offered 'Gateway to Careers'

Christmas holidays will have a unique opportunity for a "one-stop" look at local job opportunities at the "Gateway to Careers" program to be held Tuesday, Dec. 28, in the Exhibit Hall of the Chase-Park Plaza Hotel.

About 50 major companies, including Granite City Steel Co., will participate in the program which will run continuously from 9 a.m. to 5 p.m. It is being sponsored by the Industrial Relations Club of St. Louis.

Because of its importance, the event has the active support of Quad-City and Missouri area officials.

Booths will be set up by each company, and students will be able to circulate among the booths. Representatives of the various area employers will discuss with students the opportunities within their companies, and will advise students in other matters of career planning.

With so many employers gathered in one place, the students will have an excellent chance to see how their studies and career goals fit the job opportunities at each company, the club officials pointed out.

Students who are currently exploring the job market, and who will be seeking jobs in the near future—juniors, seniors, and graduate students—will be most interested in the program.

However, all college students able to participate in the program will benefit by attending. Freshmen and sophomores can learn what academic preparation they must plan for their career choices.

Students having difficulty selecting their "majors" may find the answers they need at this program.

In addition to what the students learn through personal contact with the company representatives at the booths, they also will be given company literature describing employment opportunities and qualifications required.

The St. Louis Industrial Relations Club, recognizing that many area students attend school out of town, set the date for "Gateway to Careers" to coincide with the Christmas holidays. This will enable students home for the holidays and other students who will be visiting the area to attend.

Christmas Holidays Restored in Madison

Madison public school children are expected to receive a full Christmas holiday when the board of education meets at 6:30 p.m. Tuesday.
Supt. Wensel Brown will recommend that the school calendar be amended to close schools Dec. 27 through 30. Classes have been scheduled next week to fill new state attendance requirements, but Brown said he obtained approval of the Madison county superintendent of schools to call the holiday.
The board also is to discuss a request for a federal grant of \$155,520 through the elementary and secondary education act to improve the reading and arithmetic level in all schools in the system, and the new school bond and building program.

1000 Attend Yule Party For Strikers' Children

The Venice-Madison American Legion Home was the scene of a Christmas party Saturday evening for the children of the striking OCAW, Local 7463 union members. About 1000 persons attended and were welcomed by Mrs. Mildred Grobowski, president of the WACO's Auxiliary, hostesses for the evening.
Decorations were a huge Christmas tree, table centerpieces, donated by local florists, and lights strung at the bandstand where union musicians entertained during the buffet supper and later. A potluck buffet supper was served.
At 8:30 the children gathered around the Christmas tree and sang Jingle Bells as Santa Claus

arrived on the Venice fire truck. He distributed gifts and Christmas stockings to all children.
These gifts were purchased with donations made by local union members, businessmen and private individuals.

MORE ABOUT Striking Starch

H. J. McLean, International director of Chicago, was unable to attend the meeting.
Objection to the contract offer was based by union officials and members on craft realignment schedules proposed by the company and to lack of company concessions on grievance procedures.

The offer was made in a negotiation meeting at the Mediation Service offices in St. Louis Wednesday and at first was rejected by the union negotiators.
Bowers of Washington, D. C., and Bernard O'Keefe and Gilbert Kamenberg of the St. Louis office, urged union officials to present the proposal to the union membership for a secret vote on its ratification or rejection. All three conciliators met with May or Parney after Wednesday's meeting to advise him of developments.

12-Cent Wage Boost
The proposal, termed by the company as a "final" offer, provided a 12-cent per hour increase across the board, set up a series of new job classifications and apprenticeship training program for persons transferred to different jobs. The contract proposal, however, provided that grievance procedure remain as it now is.

Austin predicted rejection of the offer prior to Thursday night's meeting, referring to the offer as "a piece of paper" on which he said the company had made no reasonable concessions.
Bowers was notified of the vote following the meeting and he, in turn, notified company officials of the results.

Arsonist Sets Fire To Quality Sand Co. Office at Stallings

Arson was blamed for a \$3500 fire at the Quality Sand Co., 4339 Highway 162 at Stallings, about 10:30 p.m. Thursday.

Jack Harper, chief of the Long Lake volunteer fire department, reported that a gallon kerosene can was found under the south window of the company office. The window was broken.

Also found under the window where the fire started was a burning torch, believed used to break the window, and the cap of a flare.

Burned were a wall, ceiling, floor, a door and a soda machine the fire department reported.

Proprietor Puzzled

Proprietor of the firm, Leo J. Hayes of Belleville, said he had no idea who the arsonist could be or why the fire was started as he has no known enemies, has not had labor trouble and has had no difficulties in business competition.

The fire was spotted by Marty Brady, 59 Kaseberg park, who saw flames through the window. He informed a neighbor, Ray Smith, 57 Kaseberg park and an employee of the company, Smith called the fire department.

Brady also said he saw a 1953 or 1955 white hardtop auto at the scene.

A large electric clock on the wall was stopped at 10:39 p.m., apparently because of the heat.

An investigation is to be conducted by Andrew Gasparovic, deputy state fire marshal, after the state fire marshal's office is notified.

MORE ABOUT Gas Attendant

asked Malecar for a can of gas, and when the attendant went to the rear of the station to get the can, he was followed and the attack occurred.

The bandit was described as being 20 to 30 years old and five feet, eight to 10 inches tall. He was wearing a light green jacket and a dark chauffeur-type cap.

Two Granite City homes, only a block apart, were broken into by burglars about the same time Friday night, with the unknown intruders getting money from each house, after ransacking the premises.

The home of Arthur Bourbon, 2455 Waterman avenue, was entered between 10:30 p.m. and

1:30 a.m. through the garage to get to the kitchen door, Bourbon said.

The entire five-room house was ransacked, and a platinum wedding ring with 10 diamond chips, and a white engagement ring with four diamond chips, were taken.

Bourbon said that the burglars also took several silver dollars that were part of a coin collection, and some Christmas presents. He did not indicate the value of the rings, nor the amount of cash taken, but did say that at the time of the incident he was at work, and his wife was in St. Louis greeting their son, who was returning from college for the holidays.

At approximately the same time, the home of Nelson Armbrage, 2540 Lynch avenue, was entered through the rear door and \$234 including 27 trading

stamp books, were taken.

Armbrage reported to police that the rear door had been forced so hard that the frame-work had shattered. The break-in happened between 10 p.m. and 1 a.m., he said.

The house was ransacked and a collection of Mercury dimes were taken while he and his wife were at the Elks club, he added.

The two break-ins follow a similar pattern of identical break-ins committed in Granite City the past two weeks.

Theft of an air sander and welding torches and gauges worth \$400 were reported Sunday evening to police by Gerald Williams, 2417 Dewey avenue, who said the equipment was stolen from the basement at his home.

He said entry was gained through an unlocked basement door.

Two four-barrel racing carburetors and a fuel injector were stolen from the home of Fred Shafer, 2501 East 23rd street, by a thief who entered the house through an unlocked basement window, it was reported to police Sunday. The theft occurred between 5:30 and 8 p.m. Saturday.

A sneak thief entered the apartment of Sharon Younker, No. 203 at 840 Niedringhaus avenue, and stole \$10 from her purse which was on a table, she reported to police Friday.

Burglars Loot Home

Burglars who pushed in a basement window stole a clock-radio, an electric roaster and two cases of beer from the home of Howard Champion, 2708 Edwards street, between 4 p.m. Saturday and 4:15 a.m. Sunday. Champion said he found the front door of his home open when he returned.

The new instrument, complete with three keyboards, features a wide selection of tones from a collection of more than 2800 individual pipes.

The recital will include the following numbers: "Hail The Day So Rich in Cheer" (Buxtehude); "Once He Came in Blessing" by J. S. Bach; "From Heaven Above To Earth I Come" (Pachelbel); "How Lovely Shines The Morning Star" (Poeter); "Noel," with variations (Bedell) and "Puer Natus Est" (Lecount). State Experimenting To Kill Beetle Larvae

Spores of milky disease, a natural control for Japanese beetle larvae, have been released on 20 acres of agricultural land used for soybeans in southwestern Illinois in St. Clair county.

Dr. W. H. Luckmann, head of the economic entomology section of the Illinois Natural History Survey, reported the experiment. Milky disease is an enemy of the Japanese beetle but does not affect other insects and wildlife.

This is the first such attempt ever made in Illinois by any state or federal agency to control the Japanese beetle by means of the milky spore disease. Development and spread of the infection and its effect on infestations of the beetle will be checked continuously by insect pathologists; Joseph Maddox of the Natural History Survey and Paul H. Schwartz jr. of the Entomology Research Division of the U. S. Department of Agriculture.

Simple Rules May Prevent Holiday Tragedy

With the Christmas season and its traditional festive decorations of paper, pine boughs and cotton comes an equally traditional fire hazard that is responsible for more deaths by fire during December than in any other month of the year. Most of these tragedies result from careless or improper handling of lights, candles and other decorations used during the Yule season.

Elementary rules of personal safety and exercise of a few simple rules will prevent tragedy during the holiday season, according to the state department of public safety which has issued a series of hints to increase the margin of safety in every home. Local fire chiefs are calling for cooperation with the state's recommendations.

A Christmas tree, the state division of fire prevention points out, is a beautiful and appealing part of the Christmas tradition, but it grows progressively more flammable every hour that it is kept in a heated room. Needles should be placed in a cool location, away from the fireplace, radiator or other heat. It should never block stairways or a door.

Issues Warning
The chiefs joins forces to warn particularly against use of candles on a tree, a custom that has caused many fires and deaths in past years. Lighted candles and open flames of all kinds should be kept away from the tree or other decorations. Trees should be taken down by New Year's Day, despite protests from the children. When the needles begin to fall off, it is time to get it out of the house.

Electric light sets should be examined before being placed on a tree to be certain that wiring and sockets are in good condition. For outside decorations, only lights and wiring made especially for use out of doors should be used. Where fixtures are exposed to outside elements, there is danger of electrical shock as well as fire.

Metal Christmas trees are becoming more popular each year, and while they are non-combustible, there is the potential danger of electric shock if lighting strings are used on the tree itself. Sharp metal edges may come in contact with cords and damage the installation. Frayed electric cords, in contact with electricity, will charge the entire tree with electricity. In addition, the safety council warned, the tips or edges of metal branches orinsel may make contact with the lamp screw shells, rear terminal openings of lamp holders or even with broken bulbs.

Plastic and metallized trees are commercially available with and without lighting systems. Purchasers should require evidence that such trees are made of materials that burn slowly, or not at all. If they contain lighting systems, or are to be decorated

GC Man Charged in Parlay Card Action

John C. Zinkhorn of Granite City is one of 28 Madison county residents named in criminal information charging violation of federal wagering tax laws filed in U. S. district court in Springfield.

He is specifically charged with failing to pay wagering taxes on parlay card bets on sporting events. The charges were based on evidence seized at the H&H tavern in Wood River on Oct. 31, 1964, U. S. Atty. Richard Eagleston said.

The tavern operator, T. W. Gredeman, 54, was charged with failing to pay wagering taxes for the fiscal years 1954-63 while allegedly in the business of accepting parlay card wagers. Zinkhorn and the others were ordered to appear before U. S. District Judge Omer Poos in Springfield Jan. 4. Upon conviction Zinkhorn could be fined from \$1000 to \$5000.

Senators Face Frequent Travel

By SEN. PAUL H. DOUGLAS

For the 17 years I have been a member of the Senate, I have been present and cast my vote at over 90% of all Senate votes which, of course, number in the thousands.

Weekend Trips

How does one do this and still get back to Illinois? I try to return to Illinois at least every other weekend throughout the session. Often I can leave on Thursday night and return back to Illinois on Sunday morning or on Monday morning and hence spend three or four days in the state.

I consider I made 10 trips back to Illinois to report to the citizens of our state. I spent a total of 96 days in the state. I was interested in how I try to perform both of these functions, that is, doing my duty in Washington while trying to report regularly to the people of Illinois.

The official statistics show that again in 1965, I had one of the best attendance records among all members of the Senate. I was present and voted on 97% of the 292 recorded votes in 1965. I was also present for 90% of the quorum calls in 1965. My attendance record was exceeded by only three of the other 100 Senators. In addition my average attendance record of 97% was 10% above the average attendance of all Democrats in the Senate.

They will cite company growth of 30% to 40% per year and "prove" that this kind of growth will make the company worth several times its present value in just a few years.

There is some validity to this kind of growth, and one can continue in a very few companies. But for most of them they don't.

Many Disappointments

There are an awful lot of investors in the United States who feel confident that the stock market system, they are the ones who bought stocks of fast-growing small companies, using this principle, before the market broke of 1929. These were the ones hardest hit by that crash. They still haven't recovered from that crash and misplaced and over-extended their investments. They are still waiting for the market to come back and they are still waiting for the market to come back and they are still waiting for the market to come back.

Quad-City Employment Off 825 Workers in One Month

Employment at 65 reporting industries and business firms in the Quad-City area during November dropped 825 workers below the September employment figure, and showed 1965 less employees than in November of a year ago, according to a report released by the Granite City office of the Illinois State Employment Service.

The report showed employment over the previous month in government and nonmanufacturing categories, as well as in the non-durable goods section of manufacturing industries. The cutback occurred in the durable goods division of the manufacturing industries, however, to an extent sufficient to eliminate the increases in the other sections and account for an additional decrease.

Employment in all 65 reporting industries totaled 18,162 during November, compared to 18,987 in September and 19,221 in November a year ago. Twenty-six of these industries, all in the manufacturing section, reported 13,859 employees in November, compared to 14,791 the previous month and 15,261 in November of 1964.

Of this total however, 13,007 persons were employed in the durable industries during November, compared to 13,847 the previous month, representing a decrease of 840 persons in the one month period. A slight increase during the same period was shown in the nondurable section which reported 952 employees in November, an increase of eight over the 944 employed in the same reporting firms in September.

Non manufacturing firms reported 4203 employees in 39 reporting businesses compared to 4196 in September.

Government employees in federal, state and local division totaled 1485 in November, compared to 1458 in September and 1382 in November a year ago.

Most of the entire cutback was in the food industry of the non-durable goods section and in the primary metals industries of the durable goods section. Employment in food industries was reported at 509 in November and 513 in September, compared to 927 in November a year ago. This figure reflects the decrease of more than 400 employees of Union Starch & Refining Co. who have been on strike since last July.

In the primary metals industries, November employment was 10,889, compared to 11,578 in September and 11,499 in November of 1964.

Police Advise Shoppers, Businesses, Home Owners

Quad-City police departments are offering suggestions to shoppers, businessmen and home owners to help them protect their property during the Christmas season.

To shoppers: Do not leave your packages lay in open view in your auto. Put them in the trunk where they cannot be seen. Be sure you do not leave your purses lay on counters.

To businesses: Be sure your place of business is securely locked at night. Leave enough lights on so that the police can see inside. Be sure that you know the persons for whom you cash checks. Make frequent trips to the bank for deposits, but do not set routine pattern. Watch closely for shoplifters.

To home owners: When you notice suspicious persons in your area, notify the police immediately. Be sure that all windows and doors are securely locked. If you leave at night, have a light burning.

Divorce Suit Granted

In Circuit Court Here

A divorce was granted to Janet L. Jones from Charles L. Jones, both of Granite City, by Associate Judge Fred P. Schuman last week in the Granite City division of circuit court. She charged cruelty and obtained custody of two children. He was ordered to pay \$60 child support every two weeks. They were married June 20, 1959, and separated last Nov. 4.

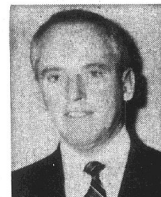

Morris Takes Realtor Board Office Jan. 19

Ralph A. Morris II, who last week was elected president of the Granite City Board of Realtors, will take office at the board's first meeting in January. He succeeds Ray Kaegel of Kaegel Real Estate Co., who was named vice-president.

In existence for nearly 40 years, the Granite City Board of Realtors lists 21 active members and several associate members. All subscribe to a national code of ethics in dealing with the public.

The new president has stated that during his tenure he hopes to strengthen the organization and promote the many professional services offered by local real estate dealers.

23-Year Member Morris, a board member for the past 23 years, previously served as vice-president and director. His father, the late A. W. Morris Jr., also was the group's top executive in the mid-1940's. A zealous civic leader, Morris

RALPH A. MORRIS II

also serves as a director of the Tri-Cities United Fund; Citizens Finance Co.; and the Tri-City American Red Cross Chapter.

He is a member of the Granite City Elks and Rotary clubs; Tri-Cities Chamber of Commerce; Downtown Granite City Shopping Center Association; Jefferson National Expansion Memorial Commission; Long Range Development Committee of the Chokoma Mound Boy Scout Council; Civic Awards Committee; Tri-City Independent Insurance Agents; and the Society of Industrial Realtors. Morris also acts as secretary of the Associated Retailers & Civic Association, and as a trustee of Sunset Hill Cemetery Association.

Other officers elected were Carl Miller, Miller-Wolf Realty, vice president, and directors, John Bloodworth, Andrew Gitchoff and Francis Judd.

Record \$3.7 Million Budget

Budget, Liquor, Pinball Laws on County Agenda

The tentative record Madison county budget of \$3,707,326 will be up for adoption by the board of supervisors at its meeting at 9:30 a.m. Wednesday in the courthouse at Edwardsville.

Supervisors also may take action on amendments to the county liquor law and a new ordinance to prohibit pinball and similar machines in unincorporated areas of the county.

The new budget for the fiscal year starting Jan. 1, expected to be out of balance by about \$85,000 in the general fund, is \$879,996 higher than that for 1965 but it includes a new item of \$340,000 as a special "federal aid matching fund" appropriation, for which a special tax was authorized at the November meeting, and \$142,900 for elections, not needed this year.

The budget includes \$1,729,924 for the general fund, an increase of \$263,595 providing for the election, \$20 monthly pay increases and other greater expenses, and \$1,977,402 for special tax funds, an increase of \$410,033.

Liquor Law Amendments Amendments to the liquor law, which were laid over at the last two board meetings because of alleged defects, have been under attack by tavern operators in unincorporated areas who claim some provisions are impossible to adhere to. They have received

the support of some ministers in the county.

The anti-pinball machine ordinance is sought by County Sheriff Harney. Fraundorf who claims some are being used for gambling purposes and that his staff is insufficient to enforce the gambling laws of the state.

The ordinance drawn by State's Atty. Joseph Bartylak is based on one recently adopted in Cook county.

The sheriff noted that operators of eight county establishments have obtained federal gambling stamps for the devices, also known as "bagatelle" and "pignole."

Children Play The school children play the pinball machines and lose their lunch money. Young people steal from their own homes and other places to get money to play these machines. In some instances adults put their whole paychecks in these machines, working a hardship on their families.

"In some instances, youngsters are led to believe that there is a lot of money in these machines, break into businesses to rob them, thus beginning a life of crime as a burglar."

Fraundorf said Cook county authorities estimate that gangsters obtain \$30 million a year through control of the machines there. "In our county, this is not the problem, but it can happen here."

Penalties for Violations The new ordinance would make it unlawful for any person to keep or use in any public place any pinball or similar machines. Upon conviction of the keeper, the machines would be destroyed, the ordinance provides, and any person obstructing or resisting any policeman in the performance of duty would be fined from \$25 to \$200 for each offense.

Penalties for violation of the ordinance would be \$10 to \$200 for each day of the violation.

IYC Obtains 10 Acres At Alton State Farm

A 10-acre tract of farm land at the Alton State Hospital will be acquired by the Illinois Youth Commission for use as a recreation and community area.

The land is to be given to the Forrest Homes Civic Association which is considering a beautification project with installation of outdoor grills for a picnic area, a baseball-softball field and a basketball-tennis courts which could be flooded for ice skating.

The youth commission is one of the first to receive some of the farm land, no longer being cultivated by the hospital. Several Madison county authorities have expressed interest in acquiring the property for park purposes and perhaps as a site for a juvenile detention home.

The IYC negotiated with the Illinois Department of Mental Health and with the office of Gov. Otto Kerner on its request for the property.

Rotary Foundation Foreign Students To Speak Tuesday

Granite City Rotarians tomorrow will see and hear two of the 145 outstanding graduate students receiving Rotary Foundation fellowships for study abroad during this academic year.

Brian Hassell of Dunedin, New Zealand, and Brian Roberts of Armidale, New South Wales, Australia, will be guests of the club at its noon luncheon at the YMCA.

Each year, Rotary International selects students sponsored by Rotary clubs around the world to receive fellowships for graduate studies in their chosen fields. While abroad, the foreign students are invited to participate in Rotary activities if this does not interfere with their study.

Hassell and Roberts are graduate students at Northwestern University, Evanston, Ill. Hassell holds a bachelor of civil engineering degree and is preparing for a career in municipal engineering. At Northwestern, he is studying traffic engineering. He was assistant city engineer for the Dunedin city council and participated in athletics and engineering societies while an undergraduate at the University of Otago and the University of Canterbury. He has been a Sunday school superintendent and a member of the American Concrete Institute and the New Zealand Institute of Engineers.

Roberts is a graduate of the University of New England and has a master of science degree. Before leaving to study as a Rotary fellow, he held a position of teaching fellow at his alma mater. At the university he was a member of the science, art and geology societies and Robb College and served as president of the basketball club and a member of the cricket club. He was a member of the Australian Universities basketball team and New South Wales Science Teacher Association.

Arrangements for the two to speak in Granite City were made by Rotary President William Hoedebecke and Rotary District Governor Ernest Tsosovsky of Edwardsville.

Services Held Today For Mrs. Warfield

Funeral services were held this morning at St. Elizabeth Catholic Church for Mrs. Nelle E. (Flynn) Warfield, 68, of 2613 Pontoon road, who died at 5:30 a.m. Thursday, while visiting in Fresno, Calif. Interment was at Jefferson Barracks Cemetery, Mo. Mrs. Warfield, a 25-year resident of Granite City, apparently suffered a cerebral hemorrhage at the home of her granddaughter, Mrs. Richard (Diana) Filter, a former Granite Cityan, with whom she had spent the previous five weeks.

She also is survived by her daughter, Mrs. William (Grace) Hoedbeck of the Pontoon road address; two sisters, Mrs. J. P. Warden of St. Louis and Mrs. George Cashel of Fort Lauderdale, Fla.; and two great-grandchildren.

Santa to Visit Children In Hospital on Wednesday

Sparkling eyes and smiles will appear on the faces of youngsters confined at St. Elizabeth Hospital, when Santa Claus arrives in the pediatric ward Wednesday evening with gifts and treats for all. The occasion will be the annual children's Christmas party, sponsored by the Granite City Jaycees.

To add to the merriment, a puppet show will be presented by Mr. and Mrs. Russell White of Granite City. Cookies baked by the Jayceettes, ice cream and soda also will be served, reports John Krekovich, Jaycee chairman.

During the affair, the Jaycees will present to the hospital an infant resuscitator and a lounging

chair, purchased by the local service club with funds raised in the recent "Bowing Sweepstakes."

The GBI hand resuscitation unit provides an efficient and controlled means of administering immediate resuscitation of respiratory assistance to new born infants, hospital authorities report. At the present time, the same type of unit is being used at the local hospital on a rental basis.

The machine was purchased at a cost of \$225, Krekovich said. He added that the lounging chair is meant to be used by mothers who have to remain with their youngsters at the hospital overnight.

Optimist Governor Visits Local Club

Elmer Ruehl of Belleville, Optimist district governor for south central Illinois, was the special guest of the Granite City Optimist Club Thursday, when he addressed members at their weekly luncheon meeting, held in the YMCA. Thirty attended.

Ruehl, a Belleville businessman, spoke on the subject, "Respect for Law," which he stated is lacking in many of today's young people. He described to the local service group several instances when onlookers stood passively by while police officers were attacked and beaten. Ruehl said that he firmly believes respect for law enforcement officers, school teachers and other authorities arises from improper corrective measures taken in the home, combined with a lack of parental respect.

Also attending the luncheon as guests were Chief of Detectives, George Teller and Detective Harry Mitchell of the Granite City police department, and Harry Woods and Walter Chapman.

Emphasis was placed on the volunteer work being accomplished by club members at the Optimist Christmas tree sales lot, located in the 2300 block of Madison avenue. Edward L. Stone, Optimist president, reported the lot will remain open from 10 a.m. to 10 p.m. daily through Christmas Eve. He added that all proceeds acquired in the project will be used for youth work in the local community.

Stone also announced cancellation of this Thursday's regular meeting. The following week, he said, a film on construction projects will be shown by Gene Sternberg, a club member.

The zoning board also approved:

A request from the Brookus Machine Co. to rezone a tract of land adjacent to the Bowland alleys on Nameoki road from R-3 residential to B-3 highway business district.

A petition of Edward Isbrecht for a special use permit to set a house trailer on a lot in an R-2 residential district in Nameoki township for use by his parents, Mr. and Mrs. Mirt Messmore.

Held in abeyance was a request of Gerald Farris requesting a special use permit to erect a garage for storage of tractor and truck in an R-3 residential district in Chouteau township.

Added Benefits in S3 Part B of Medicare

U. S. Sen. Paul H. Douglas (D) of Illinois, expressed concern this week that only about 45% of the older people have enrolled thus far in the supplementary health benefits under Medicare. He pointed out that eligible applicants must enroll before next March 31 or wait two years before again becoming eligible for enrollment.

The 45% enrollment figure, Douglas said, "probably means that more than a half-million eligible persons in Illinois have not enrolled and do not understand this important opportunity."

He said there are two separate parts to Medicare protection: Part A, the basic plan, paying for the costs of hospital, nursing home and home health care available to nearly every person 65 or over; and Part B which is the voluntary supplementary medical insurance plan.

Allied Benefits
The supplementary plan will pay for the costs of physicians' services, home health services, and many other medical and health services, but coverage under this plan is not automatic. The same persons eligible for hospital benefits are eligible for Part B benefits, but to get them they must enroll in the plan and pay the government a \$3 monthly insurance premium. The federal government matches the \$3 monthly premium for each enrollee, Douglas explained.

Present Social Security beneficiaries can have this premium deducted from the increased retirement benefits voted by the Congress in the Medicare bill.

States Plan Coverage
"I am confident that the vast majority of those who learn of this opportunity and think about it will enroll," Senator Douglas said. "Ninety percent of those responding to the first letter to present Social Security beneficiaries have enrolled in the voluntary Medicare plan."

"A number of group health associations, such as Blue Cross and Blue Shield in several areas have advised their members to enroll in Part B. The states are planning to provide this coverage for their public assistance recipients. At the very least, every person over age 65, or his or her family, should carefully consider enrolling in Part B," the senator went on, adding:

"I would hope and plead that every person who reads this letter would get in touch with any

member of his family, friend or acquaintance, over the age of 65, to see if they have carefully considered this low cost protection. If such person has not received in the mails an enrollment card and information from the Social Security Administration, he should immediately get in touch with the nearest local office."

Offices in the Madison and St. Clair county area are located at Room 202, Germania Savings Building, 343 East Broadway, Alton, and Room 300, First Federal Building, 435 Missouri avenue, East St. Louis.

Deadline Nears for
GI Insurance Renewal

"The finest Christmas present is future security for the family," John B. Nasser, manager of the Veterans Administration regional office in Chicago, said today in pointing out that service-connected veterans have less than five months to take advantage of the reopening of GI insurance.

Final deadline for application is midnight May 2, 1966. Those world war Two and Korean conflict veterans who failed to buy GI insurance or who bought it and later dropped it now have the chance to buy a new form of GI insurance provided they have a service-connected disability.

They do not have to be receiving compensation payments from the VA to be eligible.

The insurance is available in a variety of plans ranging from a low cost modified life plan to 20-year endowment.

Further details may be obtained at any VA regional office.

VA Liberalizes Clinic
Rules for New Vets

Veterans recently discharged from the Armed Forces, who require immediate care for disabilities apparently incurred in service, may now be entitled to both outpatient treatment and hospitalization from the Veterans Administration.

VA has liberalized its rules to allow medical and dental treatment at any of its clinics as well as care in any of its hospitals, as needed, during the period required for a veterans to establish that his disability was service incurred.

In an emergency, a recently discharged veteran availing adjudication of his claim to connect his injuries to his service, may obtain care at non-VA facilities at VA expense, when VA facilities are not available. However, the veteran should remember that prior approval of the VA is necessary in such cases.

Only veterans discharged or released with an honorable or general discharge after six or more months of active duty are eligible for hospitalization or outpatient treatment while awaiting VA recognition of their claimed disabilities.

In addition, application for VA medical care must be made within six months of the veteran's discharge or release from service.

The outpatient medical, dental and hospitalization privileges cease immediately when the VA adjudication board denies a veteran's claim that his disability was related to his military service, the VA said.

County Building Code
Attacked by Attorney

The legality of the Madison county building code will be challenged in January by an attorney for a large subdivision developer, John J. Storey, head of Storeland Homes Inc.

Malcolm D. Durr, Alton attorney who filed a motion to dismiss 10 notices to appear before a magistrate for alleged failure to apply for building permits, claims that Storey's rights have been violated under both the Illinois and U. S. Constitutions.

Durr charges that the basic code or ordinance "has not been properly passed and enacted by the proper authorities and is, therefore, illegal"; and that the "preliminary proceedings in connection with development and passage of the legislation in question were illegal, defective and not in accordance" with the laws of the state.

Winterize Driving Habits As Well as Vehicles

A suggestion that motorists winterize their driving habits as well as winterizing their vehicles is a recommendation by the Quad-City Safety Council.

When pavements are slippery and visibility is poor, it is recommended that a motorist reduce speed accordingly, keep a longer distance between his car and other traffic, approach intersections with extra care, steer smoothly and brake gently.

The council points out that courtesy, common sense and extra care are the marks of the responsible driver, and that the responsible driver is one who most likely to get through winter's worst weather without an accident or a traffic ticket.

Suggested methods of driving with adequate visibility are—

1. Clear all windows inside and out before starting. A clean cloth and an ice scraping device will help remove dirt or ice from windows without scratching the glass. Pressure cans containing a defrosting chemical are handy and safe when used according to directions.

2. Check windshield wiper blades and windshield washers and make sure winter solvent is in the jar to prevent freezing.

3. Always use wipers, defrosters and headlights when driving in bad weather. Visibility is

sharply curtailed in fog, rain or snow.

4. Be sure to open a window or vent to allow air to circulate inside. This will prevent misting of windows.

Two area men pleaded guilty to felonies in circuit court in Edwardsville last week and asked for probation.

They are Leroy Davis, 19, of Eagle Park Acres, who admitted a robbery, and Stanley Mack Jackson, 1513 Market street, Madison, who pleaded guilty to an attempt charge.

Probation hearings were set for Dec. 29 for Jackson and Jan. 3 for Davis.

Davis and James Jennings, 21, of Alton, had been indicted on charges of robbery and deviate sexual assault of two Rulia engineering students near the Midtown Country Club in Eagle Park Acres last summer.

Gerald Ramsey Buys Van Buskirk Market

Cameron and Joseph VanBuskirk, joint owners of VanBuskirk's grocery store, 2461 Benton street, announced today they have sold the business to Gerald Ramsey of Ferguson, Mo., who also owns Ramsey's Bi-Rite Market, 2013 Rock road.

A former Granite Cityan, Ramsey will take over the Benton

street store on Jan. 10. He reports that his West Granite business will then be closed permanently. Ramsey has managed the Rock road store since 1961, when he took over its operation from his father, Perry Ramsey. The latter had operated the business about seven years.

Ramsey said today that he plans no major changes in the operation of his new store, which has a self-service, supermarket grocery department and personal

meat-cutting service. At the present time, he added, his family will continue to reside in Ferguson.

The Benton street store was built in 1948 by the late Lucas VanBuskirk. For four years prior to that time, Mr. and Mrs. VanBuskirk were proprietors of a grocery business, located at the rear of the present store building, and now occupied by a cleaning establishment.

Neither of the VanBuskirk sons,

both of whom live on Benton street, have yet decided on future business plans.

UF Board OK's Agency Quotas, Added Amounts

Full quotas for the 22 agencies in the Tri-Cities United Fund were approved Thursday afternoon by the UF board of directors, who also approved extra amounts for the USO, the Red Cross national disaster fund and the Salvation Army.

The approval comes given after John R. Hundley, campaign chairman, gave his report that the \$348,500 drive had been topped by \$1437.

Board President Joseph Glik pointed out the added \$500 for the USO had been included in the campaign after a majority of the board members had agreed in advance, subject to a board meeting. The extra amount was pledged by the 30-Minute Club of Granite City Steel Co. employees.

An additional allocation of \$500 for the Red Cross will be sent to the national organization to aid in rebuilding the depleted national disaster fund. It was explained that hurricanes, floods and tornadoes had cost the National Red Cross over \$100,000 to provide relief to victims.

Burglary Is Reason
An added amount of \$365 to \$400 was approved for the Salvation Army to replace an adding machine and a duplicating machine that were stolen in a burglary last June. The amount is to include service and insurance coverage. A new typewriter also was stolen, but one was donated to the office.

In other action on quotas, it was noted the amount for the Madison Teen Town was reduced by \$55 to a new total of \$4715, with the \$85 deduction resulting from a designation of pledges by employees of federal installations.

Board members referred to the executive committee a decision on depositing surplus funds of the 1966 drive in interest-bearing bank accounts. The deposits are to be made among local banks, and a decision is to be made if \$40,000, \$50,000 or more is to be deposited.

President Glik explained that monthly allocations are given agencies, and the \$40,000 to \$60,000 would not be needed until after June 30.

A nominating committee was selected to prepare for the February meeting of the board. The committee will select board candidates.

Martin VanOstenbridge, 79, Dies In St. Louis

Martin VanOstenbridge, 79, of 1829 Second street, Madison, died at 1:50 p.m. Thursday, at Jewish Hospital, St. Louis, where he had been a patient since suffering a heart attack three weeks ago.

Born in Holland, Mr. VanOstenbridge, a retired textile worker, had lived for the past three years with his daughter, Mrs. Martha Neuhardt, of the Madison address. Previously he had resided in Patterson, N. J., where he was a member of the Gospel Tabernacle. His wife, Marie, died in 1962.

Besides Mrs. Neuhardt, he is survived by four grandchildren, Arthur (Butch), Cathy and Terry Neuhardt, all of Madison, and Allen Bollinger of Patterson, N. J.

Funeral services were held Saturday. Arrangements are given in today's obituary column.

\$50,000 Sidewalk Suit Filed Against City

A \$50,000 damage suit has been filed against the city of Granite City for Jeffrey Pulley, a minor, by his mother, Mrs. Kathryn Pulley, Granite City, in Circuit court at Edwardsville.

The complaint alleges that last Sept. 21, the boy was riding his bicycle on the sidewalk at 22nd and State streets, but that ob-

struction and condition of the sidewalk caused the bike to upset, throwing him to the pavement and causing severe and permanent injuries. Negligence was charged.

The approval comes given after John R. Hundley, campaign chairman, gave his report that the \$348,500 drive had been topped by \$1437.

Board President Joseph Glik pointed out the added \$500 for the USO had been included in the campaign after a majority of the board members had agreed in advance, subject to a board meeting. The extra amount was pledged by the 30-Minute Club of Granite City Steel Co. employees.

Christmas Lighting Contest Judging Starts Tomorrow

Christmas home lighting displays in three separate area contests will be judged this week, with winners to be announced in Thursday's edition of the Press-Record.

Judging will start this evening and continue tomorrow night for displays entered in the Granite City Jaycee-sponsored contest, according to Donald Cooper, project chairman. Eighteen winners will be selected in the Granite City, Stalling and Pontoon Beach areas, with each to receive a \$10 cash award.

Wednesday evening, a panel of judges, headed by Eugene Alesi, Granite City high school art director, will choose two grand trophy winners in the religious and non-religious categories from the 18 previously selected. Park Improvement Association will be judged by officials to tour the entire Tuesday evening. Prizes to be presented by the Eagle among the 18 previously selected. Park Improvement Association include a \$50 merchandise gift certificate, first place; and a \$10 certificate, for second place. It is announced by Cleveland Johnson, association president.
